

Habitat Report: Step 3

Due Date: _____

Rough Draft

Students will create a final report using the information they gathered in the first two steps of this guided research report. Your first draft should be four paragraphs in length and must contain the following information: (DON'T FORGET TO DOUBLE-SPACE YOUR WRITING OR TYPING!!!)

Paragraph 1: Description of the habitat – use the information gathered in Step 1 to compose a well-constructed paragraph about your habitat.

Paragraph 2: Description of one animal from the habitat. (Use the information gathered in step 2.)

Paragraph 3: List at least three reasons why the animal belongs in that habitat. (Include prey, camouflage, etc.)

Paragraph 4: Would this animal make a good pet? Why or why not? If you did have this animal as a pet, how would you need to take care of it? (Don't forget to include a good ending!!)

Rough drafts are due by the date listed above. We will do some editing and revising in class, so this draft does not have to be perfect. Reports may be typed or neatly handwritten.
